SEMCO
TEAK ITALY

Feel Natural

Use our
Natural Sealer

TAKE CARE OF
YOUR YACHT
WITH OUR
TEAK SEALER

Semco Teak Sealer waterproofs and protects teak. This durable protectant maintains a protective coating through winter, eliminating the need for deep cleaning. Semco teak wood sealant goes on easy, dries quickly, and provides a non-slip finish.

Many sealers promise to protect wood and repel water. Semco does it without the side effect of creating a slippery surface. Withstands staining, weathering and discoloring up to a year. Because the treatment is easily renewed and usually lasts a season, you won't have to endure tedious deep cleaning normally associated with teak restoration. Manufacturer coverage specifications: 1 gallon Coverage is approx 200 sq ft for 1st coat or 400 sq ft for the 2nd coat.

Available in several shades.

Clartone - contains no pigment and is therefore not as resistant to the elements and requires more frequent re-coating.

Natural - the favorite shade for yachtsmen, will give the wood a "sandy tan" colour of weathered teak.

Honeytone - the most popular choice for our furniture customers. This shade gives the wood a rich "honey" colour, similar to the colour of the wood when it is new.

Goldtone - will give the wood the "reddish brown" colour of new teak.

Classic Brown - will give the wood the "dark brown" colour of teak when wet.

SEMCO 2 Part Teak Cleaner

If your deck has been allowed to weather, contains mould or is stained by food or other marks or if you wish to remove the teak sealer and start again, SEMCO 2 Part Teak Cleaner will restore the wood to a like new condition. When teak is exposed to the elements without finish, or has been oiled, stained with food or other stains, the surface becomes dirty, grey and mildew often develops. SEMCO Two Part Cleaner removes the effects of mildew, weathering and food and water stains.

This product is easy to use and will produce dramatic results. Please read the instructions in full before using SEMCO Two Part Cleaner. Wear eye protection and rubber gloves.
